SOME ITEMS IN THE HISTORY OF THE UNIVERSITY.

The charter of what is now known as WASHINGTON AND LEE UNIVERSITY was first granted in 1782, to LIBERTY HALL ACADEMY, a school established by the early settlers of the Valley of Virginia, in 1749, and, until the Revolutionary War, called THE AUGUSTA ACADEMY.

In 1796, General Washington bestowed upon LIBERTY HALL ACADEMY James River Company stock, valued at \$50,000, voted to him by the Commonwealth of Virginia in acknowledgment of his services in the Revolution, but accepted by him on the express condition that he should be permitted to endow therewith some institution of learning. The name, LIBERTY HALL ACADEMY, was then changed to WASHINGTON ACADEMY, and this, in 1813, to WASHINGTON COLLEGE.

In 1803, the Institution received the further endowment of \$25,000, from the Society of the Cincinnati, and in 1826 a gift of \$40,000 from John Robinson, a soldier under Washington. In honor of these munificent benefactions, the Trustees established the "Cincinnati Professorship of Mathematics," and the "Robinson Professorship of Chemistry."

In 1865, General Robert E. Lee accepted the Presidency of WASHINGTON COLLEGE, a position which he held for five years, until his death, in 1870.

In 1871, General G. W. Custis Lee succeeded his father in the Presidential Chair, and the Legislature of Virginia changed the name of the Institution to its present title—WASHINGTON AND LEE UNIVERSITY.

In addition to the munificent gifts just mentioned, it is deemed proper to note more recent contributions to the funds of the Institution. The names, however, can be here inserted of those only whose contributions exceed or approximate \$5,000.

HON. CYRUS H. McCORMICK, Chicago.....	\$20,500
Trustees of estate of HON. CYRUS H. McCORMICK.....	20,000
MR. WARREN NEWCOMB, New York.....	10,000
MR. W. W. CORCORAN, Washington City.....	30,000
COL. THOMAS A. SCOTT, Philadelphia.....	60,000
MR. R. H. BAYLY, New Orleans (a bequest, of which one-half has already been realized).....	70,000
HON. GEORGE PEABODY, London (value at time of donation, in 1869, less expenses of litigation), about \$250,000.	

MR. RATHMELL WILSON, of Philadelphia, a large and valuable library of scientific and literary works, estimated at \$6,000 to \$8,000.

DR. W. N. MERCER, New Orleans, one thousand volumes of select and especially valuable Books and several Oil Paintings of great historical interest.

MR. LEWIS BROOKS, of Rochester, N. Y., for the Museum, and its arrangement, as particularly described elsewhere in this Catalogue, sums aggregating \$25,000.

"Newcomb Hall" has been erected at the cost of \$20,000 by MRS. JOSEPHINE LOUISE NEWCOMB, of New York, as a tribute of affection and honor to the memory of her husband, the late Warren Newcomb, Esquire.

To MRS. M. J. YOUNG, of Houston, and other ladies of Texas, the University is indebted for a large and costly Organ for the Lee Memorial Chapel.

MR. H. H. HOUSTON, of Philadelphia, has given the sum of \$7,000, the interest on which is applied to the support of the Howard Houston Fellowship.

MR. F. O. FRENCH, of New York, has established a Scholarship, yielding annually \$800, for the benefit of undergraduates.

In 1884, VINCENT L. BRADFORD, LL. D., D. C. L., a distinguished citizen of Philadelphia, gave by his will to the University his law library, containing more than 1,000 volumes, his splendid collection of paintings, and one-half of his large estate, after the payment of certain annuities—all subject to a power of appointment conferred on his widow. The expressed purpose of the gift is the endowment of a chair of "Civic Law and Equity Jurisprudence," to be called by the name of the donor; and, if the fund prove sufficient, the endowment of the "Bradford Chair of Constitutional and International Law." And the will requires that the law library and paintings shall be kept up by the University by the appropriation annually of the sums of \$400 and \$500 respectively.

The friends of the University in various parts of the country will be gratified by the strong testimony to its claims on the confidence of the public at large, which is afforded in the high character of these, its patrons, as well as in the extent of their liberality on its behalf. Decisive as this testimony must be regarded, it would yet be greatly strengthened by adding the names, with the generous contributions, of other patrons, the number of whom prevents a more particular notice of their benefactions.

ORGANIZATION OF THE UNIVERSITY.

The essential features of this organization are:—

1. The arrangement of the course of study into distinct elective Departments. Students may elect their own studies; but in each department there is a prescribed course, which the student is required to pursue according to the degree of his preparation. Promotion is accorded only upon actual attainments, and Certificates are conferred only at the end of a complete course, upon a thorough examination.

2. The adaptation of the several Departments to certain *Courses of Study*, to each of which is attached a Degree. Students are encouraged, as far as possible, to pursue and complete some one of these several courses.

Each of the two Academic Degrees of the University—BACHELOR OF ARTS AND MASTER OF ARTS—can be reached by several different courses. In order that students may have scope for the exercise of individual taste and talent, the courses are so selected as to allow the largest liberty consistent with thorough culture.

The degree of DOCTOR OF PHILOSOPHY is intended to encourage post-graduate study. The professional degrees of CIVIL ENGINEER and BACHELOR OF LAW are attached to these professional Schools. No degrees are conferred *in course*; but all are based upon actual attainments in a completed course of study.

3. A system of Honors, Prizes, &c., adapted to the encouragement of a general scholarship, as well as of distinguished proficiency in particular branches. These are increased in number as fast as the funds of the University or the liberality of friends renders it possible.

FACULTY AND OFFICERS.

G. W. C. LEE, 1871,

President.

*JOHN L. CAMPBELL, A. M., LL. D., 1851,
Robinson Professor of Chemistry and Geology.

JAMES J. WHITE, A. M., 1852,
Professor of Greek and Greek History.

ALEXANDER L. NELSON, M. A., 1854,
Cincinnati Professor of Mathematics.

CARTER J. HARRIS, A. M., 1858,
Peabody Professor of Latin and Roman History.

G. W. C. LEE,

Acting Thomas A. Scott Professor of Applied Mathematics.

JAMES A. HARRISON, A. M., 1876,
Professor of Modern Languages, English, and Modern History.

SIDNEY T. MORELAND, M. A., C. E., 1880,
McCormick Professor of Natural Philosophy.

†JOHN P. STRIDER, M. A., D. D., 1885,
Professor of Moral Philosophy and Belles-Lettres.

DAVID C. HUMPHREYS, C. E., 1885,
Adjunct Professor of Applied Mathematics.

HARRY D. CAMPBELL, M. A., PH. D., 1884,
Assistant Professor of Chemistry and Geology.

HENRY A. WHITE, M. A., 1885,
Assistant Professor of Modern Languages, and Instructor in Modern History.

WILLIAM H. SAUNDERS, 1884,
Instructor in Elocution.

JOHN L. CAMPBELL, JR., 1877,
Clerk of the Faculty.

JACOB FULLER, 1883,
Librarian.

JOHN R. ANDERSON, 1877,
Proctor.

*Died Feb. 2, 1886. The work of the Department was continued by Assistant Professor H. D. Campbell.

†Dr. J. L. Kirkpatrick died June 24, 1885. Dr. Strider died January 23, 1886. After his death, the work of this Department was divided between Rev. J. B. Taylor, D. D., and Assistant Professor H. A. White.

LAW FACULTY.

CHARLES A. GRAVES, M. A., 1875,
Professor of Common and Statute Law, and Equity Jurisprudence.

HON. J. RANDOLPH TUCKER, LL. D., 1875,
Lecturer on Constitutional Law.

HON. HUGH W. SHEFFEY, LL. D., 1875,
(*Late Judge of the Circuit Court of Virginia*),
Lecturer on Wills and Probate Practice.

COURSE OF STUDY.

The Course of Study is divided into the following distinct Departments. The student, under the advice of the Faculty, may select any studies for which he is prepared.

DEPARTMENT OF LATIN AND ROMAN HISTORY.

PROFESSOR HARRIS.

In this Department there are three classes :

I. JUNIOR.

This class meets five times a week. The chief work of this class is constant drill in the Inflections and the elementary principles of Syntax ; a persistent effort is made to secure exactness and uniformity of pronunciation with the observance of quantity.

There are two written exercises a week. The class reads Livy, Cicero, Vergil's *Aeneid*.

TEXT-BOOKS.

Gildersleeve's Grammar ; Tozer's Primer of Classical Geography ; Creighton's Primer of Roman History ; Keightley's Mythology.

II. INTERMEDIATE.

This class meets four times a week. The authors read are Livy, Cicero, Vergil, Terence. The study of Syntax is pursued systematically. There are two written exercises a week. One hour a week is given to the study of Roman Antiquities.

III. SENIOR.

This class meets four times a week. The class reads Tacitus, Horace, Juvenal, with selections from other poets. One hour each week is given to Roman History and Literature.

TEXT-BOOKS.

Leighton's Roman History, Crutwell's Roman Literature.

Private parallel reading is required in all the classes ; a small amount in the lower, a larger amount in the higher classes.

NOTE.—There is a fourth class, which meets five times a week, for students who are not prepared for the Junior class. This class studies Gildersleeve's Grammar and Exercises, and reads *Cæsar* and *Ovid*.

DEPARTMENT OF GREEK AND GREEK HISTORY.

PROFESSOR WHITE.

I. JUNIOR CLASS.

Reads Xenophon's *Anabasis* and *Memorabilia* and Plato's *Apology* and *Crito*; studies the Forms and Structure of the Language, illustrated by Exercises in Greek Composition. Curtius's Grammar. (Five times a week.) *

II. INTERMEDIATE.

Reads Homer, *Æschylus* and *Demosthenes*. The Syntax is systematically taught by lectures and exercises. (Three times a week.)

III. SENIOR.

Reads *Thucydides*, *Sophocles* and *Euripides*. The *History* (Smith) and *Literature* (Jebb) are studied in this class. Candidates for Proficiency are expected to pursue a prescribed course of reading in addition to what is read in the Lecture-room. (Four times a week.)

Arrangements are made for Elementary Instruction in a Fourth class.

DEPARTMENT OF MODERN LANGUAGES, ENGLISH,
AND MODERN HISTORY.

PROF. HARRISON.

INSTRUCTOR: WHITE.

MODERN LANGUAGES.

The subjects taught in this Department are the French and German languages. There are two classes, Junior and Senior, each of which meets three times a week.

FRENCH.

JUNIOR—Harrison's French Syntax (selected parts); *Böcher's Otto's Reader*, *Böcher's College Plays*; *Saintsbury's French Literature*. Exercises twice a week.

SENIOR—*Keetels' Collegiate Grammar*; Harrison's French Syntax; *Molière* and *Racine*; *Saintsbury's French Literature*; *Abbé Constantin*. Exercises twice a week. Outlines of Historical French Grammar are taught. *Spiers* and *Surenne's Dictionary*. For Etymologies, *Brachet's Dictionary*. Some knowledge of Latin is desirable in the Senior Class.

GERMAN.

JUNIOR—*Whitney's Smaller Grammar*; *Whitney's Reader*; *Grimm's Märchen*; *Hosmer's German Literature*. Exercises twice a week.

SENIOR—*Brandt's Grammar*; *Lessing*, *Schiller* and *Goethe*; *Hauff's Märchen*; *Heine's Reisebilder*; *Hosmer's German Literature*. Exercises twice a week.

Adler's Dictionary. Private parallel reading is required in all classes.

ENGLISH LANGUAGE.

GENERAL.

The *Junior Course* in English is intended for students who have either never had an opportunity to study English Grammar at all, or who desire to review what they may have studied at other institutions. This course is devoted particularly to a thorough drill in English Composition, Analysis and Punctuation, for which suitable text-books are provided. A course of reading in the principal English poets, from Shakspeare to Tennyson, accompanies the work of the Junior year. Effort is made to correct errors in pronunciation, and to inculcate accuracy in the use of language.

Academic Students of the University, who contemplate graduation in any study, are required either to pass the Junior Examinations successfully or to stand a Special Examination in English at such time as the Faculty of the University shall indicate.

Students who pass the Special Examination with distinction have the option of entering the Intermediate Class.

The *Intermediate* and *Senior Courses* in English are largely, though not exclusively, devoted to the historical study of the language as developed out of the Anglo-Saxon and enriched by the French and other languages. The history of the forms and inflections is carefully pursued. The masterpieces of the Anglo-Saxon, the Semi-Saxon and the Early English period, from Beowulf to Chaucer, inclusive, are systematically studied, while throughout the Intermediate year ordinary English Composition, in continuation of the Junior year, is cultivated.

Parallel Reading, Lectures and Exercises are further agencies employed to render the study of English during the two concluding years as wide and useful as possible.

The prizes awarded by the New Shakspeare Society and by the Early English Text Society, for the best piece of work on some technical subject connected with Anglo-Saxon and Early English, respectively, for the English department, are promised for the future.

Some knowledge of Latin, French and German is highly desirable for Intermediate and Senior students.

English Literature specifically, and Rhetoric are taught in the Department of Moral Philosophy and Belles-Lettres; and to complete a full English Course it is most desirable that students combine this Course with the Course of Special English indicated below.

SPECIAL.

JUNIOR—Three recitations a week.

Texts—Kellogg's Higher English Grammar; Abbott's How to Write Clearly; Minto's Prose Composition; Ward's English Poets, vols. III and IV.

English Composition, Punctuation, Sentence-Analysis are carefully taught in this Class. Weekly Exercises and Analysis. Parallel Reading.

INTERMEDIATE.—Three recitations a week. The history of the English language is now taken up, and the study of English composition is continued by weekly exercises. Anglo-Saxon is begun at once.

Texts—Bain's Higher English Grammar; Morris's Elementary Historical English Grammar; Ward's English Poets, vols. I and II; March's or Carpenter's Anglo-Saxon Grammar; Baskervill's *Andréas*; Exercises; Parallel Reading.

Ward, vols. I and II, contains selections from all the great English poets, from Chaucer to Shakspeare, and the four volumes of the work, as distributed between the Junior and Intermediate years, contain a very complete outline sketch of the period 1350-1850.

SENIOR—Three recitations a week. The historical study of the language is continued, and an extensive course of Anglo-Saxon, Semi-Saxon and Early English, from Beowulf to Chaucer (connecting with the Intermediate Course), is completed; lectures on the history and development of the language are given; the study of Gothic, as the foundation of English and Germanic philology, is begun by means of Skeat's edition of one of Ulfilas's Gospels.

Texts—Sweet's Anglo-Saxon Reader; Corson's Hand-Book of Early English; Harrison and Sharp's Beowulf; Whitney's Language and the Study of Language (for the general history of philology and its methods); Ten Brink's History of Old English Literature.

A piece of special work will be required of each Senior student. Parallel Reading.

Works for General Reference—Skeat's Etymological Dictionary of the English Language; Gilman's Chaucer; the Globe Shakspeare; Abbott's Shakspeare Grammar; Kington-Oliphant's and Earle's Works on English; Baskervill and Harrison's Anglo-Saxon Dictionary.

MODERN HISTORY.

Text-Books.—Gibbon; Hallam's Middle Ages; Doyle's History of the United States; Green's History of the English People; Lodge's Modern Europe.

DEPARTMENT OF MORAL PHILOSOPHY AND BELLES-LETTRES.

PROFESSOR STRIDER.

The subjects taught are—

Philosophy of the Mind, with the use of Hamilton's *Metaphysics*; Logic, with Bowen's *Treatise*; Ethics, partly by lectures and partly with the use of Alexander's *Moral Science*; Evidences of Christianity, with Paley's *Treatise* and Butler's *Analogy*.

In the foregoing studies the class meets the Professor five days of the week throughout the session.

In the Department of Belles-Lettres, the books used are—

Bain's and Whately's works on Rhetoric, and Shaw's and Taine's *Histories of English Literature*, to which are added Readings and Critical Analysis of standard authors.

Two classes, each meeting three times a week through the entire session.

Lectures, more or less formal, are delivered throughout the course when the subjects require them.

Books for reference and for parallel reading are named as there is occasion for their use.

DEPARTMENT OF MATHEMATICS.

PROFESSOR NELSON.

In this Department there are three classes:

I. JUNIOR.

In this class are taught Algebra, Geometry and Plane Trigonometry (five recitations per week).

In order that students may enter this class, they must be familiar with Arithmetic and with Elementary Algebra as far as quadratic equations, and have studied two books of Geometry. There is a lower section, called the *Second Junior Class*, which students may enter who are not prepared to enter the regular Junior Class.

II. INTERMEDIATE.

This class studies Spherical Trigonometry, Analytical Geometry and an elementary course in Differential and Integral Calculus. (Three recitations per week.)

III. SENIOR.

This class takes a more extended course in Analytical Geometry, Differential and Integral Calculus, and studies the Philosophy of Mathematics. (Three recitations per week.)

In all of the classes the students are subjected to rigid examinations in the class-room, and are carefully trained in making accurate demonstrations at the black-board. Much importance is attached to the original solution of problems so selected as to afford applications of the principles taught in the class-room.

TEXT-BOOKS.

Wentworth's Complete Algebra; Wentworth's Plane and Solid Geometry; Wells's Trigonometry; Puckle's Conic Sections, with notes and Lectures by the Professor; Olney's General Geometry and Calculus; Byerly's Differential and Integral Calculus; Comte's Philosophy of Mathematics.

DEPARTMENT OF APPLIED MATHEMATICS.

PROFESSORS LEE AND HUMPHREYS.

Three Classes.

I. JUNIOR—TWO SECTIONS.

1. Descriptive Geometry, Shades, Shadows and Perspective (Church); Topographical Drawing (Smith).
2. Surveying (Davies); Astronomy (Newcomb & Holden).

II. INTERMEDIATE.

Rudiments of Architecture; Stone Cutting (Problems from Leroy); Applied Mechanics (Rankine).

III. SENIOR.

Applied Mechanics (Rankine); Civil Engineering (Rankine).

To enter the classes of this Department the following are required:—

For the Junior Class: Finish the Junior Class (I) in Mathematics.

For the Intermediate Class: Finish the Intermediate Class in Mathematics and the Junior Class in Natural Philosophy.

It is best to finish the Junior Class in Natural Philosophy before taking Astronomy.

The principles of fortification and gunnery will be taught to students that wish it.

Students are required to make architectural, topographical, and mechanical drawings throughout the course, and have field practice in the use of the compass, level and transit.

DEPARTMENT OF NATURAL PHILOSOPHY.

PROFESSOR MORELAND.

In this Department there are two classes, each meeting five times a week.

I. JUNIOR.

This class studies Elementary Mechanics and Physics. All members of the class do experimental work on such subjects as the measurement of linear dimensions and of capacity, weighing, specific gravity of solids and liquids, Boyle's law, velocity of sound, latent heat of water, specific heat of solids and liquids, laws of reflection and refraction of light, measurement of focal distance of mirrors and lenses, simple experiments with the spectroscope and the polariscope, general experiments in electricity at rest and in motion, measurement of electrical resistances in the cell and in the external circuit, general experiments with magnets, &c.

The solution of a large number of problems in both Mechanics and Physics is required. To enter this class students must be prepared to enter the Intermediate Class in Mathematics.

II. SENIOR.

This class studies Analytical Mechanics and one or more branches of Physics: such as heat, light, or electricity. The experimental work is continued. Students may take this class and Senior Mathematics the same year, but it is better to finish the Mathematics first.

TEXT-BOOKS.

Dana's Elementary Mechanics; Glazebrook and Shaw's Practical Physics; Stewart's Physics; Bartlett's Analytical Mechanics; McCulloch's Mechanical Theory of Heat; Airy's Undulatory Theory of Optics.

Students have access to the works of Maxwell, Thomson, Tait, Jamin and Bouty, Mascart and Joubert, Verdet, Fresnel, and others.

DEPARTMENT OF CHEMISTRY AND GEOLOGY.

PROFESSOR CAMPBELL.

ASS'T PROF. CAMPBELL.

In this Department there are two classes. The studies are divided as follows:

I. THEORETICAL AND PRACTICAL CHEMISTRY.

1. CHEMICAL PHYSICS.—Embracing Light, Heat and Electricity, in their relations to the science of Chemistry.

2. INORGANIC CHEMISTRY.—In which are discussed the use of chemical symbols and nomenclature; the laws of chemical affinity; electro-chemical decomposition; the atomic theory and the theory of volumes; the relation of Chemistry to Mineralogy; the general principles of inorganic analysis; theory and use of the Spectroscope.

3. ORGANIC CHEMISTRY.—Treating of the composition and properties of the proximate constituents of plants and animals; the changes produced by fermentation, and by light, heat and chemical re-agents; the theory of compound radicals; the properties of vegetable acids and alkaloids, and the principles and processes of organic analysis.

4. PHYSIOLOGICAL CHEMISTRY.—Including an outline of vegetable and animal physiology; the connection of vitality with chemical action in both plants and animals, as illustrated in growth, nutrition and respiration.

5. Course of lectures on agriculture.

6. A brief history of the origin and development of chemical science.

This class meets the Professor in the Laboratory on six days of every week for lectures, experiments and recitations. The lectures are illustrated by an elaborate course of experiments. Recitations are both written and oral. Exercises in Laboratory work will be given as often as circumstances may permit.

Solutions of scientific problems, with written exercises and essays on the subjects of study, are assigned frequently throughout the session.

A WORKING ROOM has been fitted up for practical exercises in *Applied Chemistry*.

TEXT-BOOKS.

"Bloxam's Chemistry" (last edition) and "Fownes' Chemistry" (new edition). A good chemical library for reference is accessible for students.

Students entering this Department must be familiar with the subjects taught in the Junior Class of Mathematics.

II. NATURAL HISTORY AND GEOLOGY.

A knowledge of Chemistry is required for this course.

The course of Natural History and Geology occupies three hours per week in lectures and recitations, for the entire session.

Elementary courses of Zoology and Mineralogy are studied preparatory to Geology.

The study of comparative Zoology will relate chiefly to the structure, habits and classification of animals, preparatory to the study of Palæontology.

The leading object in the study of Mineralogy, is to make the student familiar with—

1. The external properties of all important minerals as they are found in the earth.
2. The methods of testing them with chemical re-agents and with the blow-pipe.
3. Their practical value and relation to the arts, and to the science of Geology.

Geology is studied under the following heads:

1. Dynamical Geology, or Geological Agencies.
2. Structural Geology.
3. Historical Geology, especially that of the United States.
4. Practical application of the science (a) in explorations for metallic ores and other valuable minerals; (b) in Mining and Civil Engineering.

TEXT-BOOKS.

Orton's Comparative Zoology, Dana's Manual of Mineralogy and Lithology, and Le Conte's Geology.

Dana's Manual of Geology, and other works on the subject, are always accessible to members of the class for reference.

N. B.—The studies in this Department are illustrated by an extensive Museum. (See on page 45). The hills, mountains and railroad cuts surrounding the Institution also afford admirable illustrations of the science of Geology.

ELOCUTION.

INSTRUCTOR: SAUNDERS.

Instruction in Elocution is given in two classes, Junior and Senior. Each class is divided into sections when the number requires it.

The course of instruction embraces the Science and Art of Elocution.

I. JUNIOR.

This class studies the Elementary Principles of Vocal Expression, has exercises in Vocal Culture, Articulation and Action, and drills in selections and extracts illustrating the principles taught.

Each member of the class is required to recite selections containing the different styles of thought.

TEXT-BOOKS.

Hamill's Science of Elocution, and Fulton and Trueblood's Choice Readings, supplemented by extracts, diagrams, notes and blackboard illustrations.

II. SENIOR.

This class pursues the study of the Principles of Elocution embodied in "Philosophy of the Voice," by Dr. Rush.

Special attention is given to the *Analysis* of all forms of vocal expression.

The subject of Action is further explained, and advanced by practical drills.

The members of this class are required to read and speak original productions, or selections from standard authors.

To enter the Senior Class, students are required to pass the Junior Examinations on the *Principles* taught, and to give satisfactory evidence of improvement in the *Art* of delivery.

TEXT-BOOKS.

Murdoch's Analytic Elocution; Russell's Vocal Culture; Shakspeare's Plays.

SCHOOL OF LAW AND EQUITY,

CHARLES A. GRAVES, M. A., B. L.,

PROFESSOR OF COMMON AND STATUTE LAW AND EQUITY JURISPRUDENCE.

HON. J. RANDOLPH TUCKER, LL. D.,

LECTURER ON CONSTITUTIONAL LAW.

HON. HUGH W. SHEFFEY, LL. D.,

(Late Judge Circuit Court of Virginia).

LECTURER ON WILLS AND PROBATE PRACTICE.

This School furnishes full instruction in the Law of Real and Personal Property and of Contracts; in Mercantile Law; in the Law of Torts and Crimes; in Equity Jurisprudence; in Evidence, and in Practice and Pleading; and in International and Constitutional Law.

The course is so arranged as to render possible its completion in one session of nine months. This enables diligent and earnest young men, whose means or time is limited, to prepare themselves for the Bar by a single year's unremitting study. Students are advised, however, to devote two years to their course in Law; the time thus obtained for reflection and mental digestion will secure a more thorough and accurate knowledge of law, and a stronger and more comprehensive grasp of fundamental legal principles.

There are two classes—Junior and Senior; and in each class there are six recitations or lectures a week. The Senior Class recites from ten to half-past eleven each day; the Junior from twelve to half-past one. Students who take the Junior Course only in Law, should pursue with it one or more of the Academic Studies taught in the University, the course in Rhetoric being especially recommended. Students who take the Senior Course only in Law, (having completed the Junior Course the previous session), are advised to pursue at the same time the course in Metaphysics and Logic.

The studies of each class are divided into those of the First Half-Session, and those of the Second Half-Session. The Second Half-Session begins February 1. In the Junior Class the studies of the two Half-Sessions are distinct, and students may enter at the beginning of the Second Half-Session, and thus materially lighten the labor of completing the course the following year.

The examinations are held at the end of each Half-Session. They are meant to be rigid, and they require a thorough acquaintance with all the subjects studied. There is no preliminary examination for admission into the Law School.

The instruction is by text-books, supplemented by a full course of printed Lectures. Written opinions are required every week of the Senior Class upon cases stated, involving the principles of law under consideration. By a special arrangement with law publishers, students can procure text-books at greatly reduced rates.

The following are the text-books required, in the order in which they are studied:

JUNIOR CLASS—First Half-Session: Introductory Lectures; Blackstone's Commentaries, Book II.; Williams on Real Property; Printed Lectures on Real Property; Smith's Law of Contracts; Printed Lectures on Domestic Relations; Blackstone's Commentaries, Book I.; Schouler's Personal Property, vol. II., (Sale and Bailment).

Second Half-Session: Schouler's Personal Property, vol. II., (Accession, Confusion, and Gifts); Hutchinson on Carriers; May's Criminal Law; Blackstone's Commentaries, Book IV.; Cooley's Principles of Constitutional Law, (Law Students' Series); Woolsey's International Law, (5th edition). For reference: The Federalist.

SENIOR CLASS—First Half-Session: Printed Lectures on Corporations; Printed Lectures on Negotiable Paper; Bispham's Principles of Equity; Bigelow on Torts, (Law Students' Series); Blackstone's Commentaries, Book III.

Second Half-Session: Stephen on Pleading, (Tyler's ed.), with Lectures; Langdell's Summary of Equity Pleading, (2d ed.); Greenleaf on Evidence, (14th ed.), vol. I.; Blackstone's Commentaries, Book III.; Printed Lectures on the Conflict of Laws.

 Students should have the Codes of their several States for reference.

on Practice and Pleading. A "Law Debating Society" is conducted by the students themselves.

Students have free access to the Law Library, which adjoins the Law Lecture Room, and contains a large collection of standard text-books, besides English and American Reports.

The Degree of Bachelor of Law is conferred on students who satisfactorily pass the examinations upon the entire course. Certificates of Distinction are conferred upon the Junior Course.

The students of the Law Class are authorized by the Faculty to select one of their number as "Law Class Orator," to deliver an Oration at the Commencement of the University.

The Law School opens at the same time with the Academic Departments of the University—the next session beginning Thursday, September 16, 1886.

EXPENSES FOR SESSION OF NINE MONTHS:

Tuition in Law Department.....	\$50 00
Fees for Matriculation, Library, Servants, &c.....	20 00
Diploma and Contingent Fee.....	10 00
TOTAL.....	\$80 00

Students who take both classes in one year pay \$80, as above. Those who take one class only, in Law, pay the same, but are entitled to enter the Academic Schools of the University without further charge.

The expenses for the entire session of a Law Student who boards in a private family, or at the University Hotel, need not exceed \$250. This estimate includes tuition, fees, meals, lodging, &c., but does not include books, or clothing.

EXAMINATIONS.

These are conducted chiefly in writing, and are the Intermediate and Final, held, the former near the middle, and the latter near the close of the session.

The examinations are conducted by the Professors. No certificate of any kind is conferred, except after thorough and satisfactory examination upon the prescribed subjects.

The failure of a student to stand any of the regular examinations of his class shall subject him to censure, and he shall forfeit his place in the class, unless such failure shall be excused for reasons deemed sufficient by the Faculty.

CERTIFICATES AND DIPLOMAS.

1. As evidence of *distinguished attainments* in a Junior or Intermediate class, a CERTIFICATE OF DISTINCTION will be conferred.

2. As evidence of *satisfactory attainments* in any department, or complete subject therein, a CERTIFICATE OF PROFICIENCY will be conferred, with the title of PROFICIENT.

3. As evidence of *distinguished attainments* in any department, or complete subject therein, a CERTIFICATE OF DISTINGUISHED PROFICIENCY will be conferred, with the title of DISTINGUISHED PROFICIENT.

4. Diplomas, attesting the degrees of the University, are conferred by the Board of Trustees, on the recommendation of the Faculty.

Before receiving a CERTIFICATE OF PROFICIENCY on any subject, students are required either to complete the course of Junior English, or to pass a special examination in English at a time prescribed by the Faculty.

DEGREES.

1. ACADEMIC.

I. BACHELOR OF ARTS, (A. B.), conferred upon students who successfully complete the studies mentioned in any one of the following schemes:

Scheme A.—The entire course of Latin, Greek, Rhetoric, Moral Philosophy, and Modern History *or* English Literature; the Intermediate course of English; the Junior course of Mathematics; the course of Chemistry, Natural History, and Geology, *or* the Junior course of Natural Philosophy, Surveying, and Astronomy; the entire course of German and the

Junior course of French *or* the entire course of French and the Junior course of German.

Scheme B.—The entire course of French, German, English, Rhetoric, Moral Philosophy, and Modern History; the Intermediate course of Mathematics; the Intermediate course of Latin and Greek *or* the entire course of Latin and the Junior course of Greek; the course of Chemistry, Natural History, and Geology, *or* the Junior course of Natural Philosophy, Surveying, and Astronomy.

Scheme C.—The entire course of Mathematics, Natural Philosophy, Chemistry, Natural History, Geology, French, German, Rhetoric, and Moral Philosophy; Descriptive Geometry, Shades and Shadows, and Perspective; Surveying and Astronomy; the Junior course of Latin and Greek *or* the Intermediate course of either Latin or Greek.

II. MASTER OF ARTS, (M. A.), conferred on students who complete with distinction all the subjects embraced in either of the following schemes, and who, moreover, make special attainments in scheme *A*, either in Latin and Greek, or in French, German and English, and, in scheme *B*, in Mathematics, Natural Philosophy, Chemistry, Natural History and Geology.

Scheme A.—The entire course of Latin, Greek, French, German, English, Rhetoric, Moral Philosophy, English Literature and Modern History; the Intermediate course of Mathematics; the Junior course of Natural Philosophy; Chemistry; an elementary course of Surveying and Astronomy.

Scheme B.—The entire course of Mathematics, Natural Philosophy, Chemistry, Natural History, Geology, French, German, Rhetoric, English Literature, Moral Philosophy and Modern History; the entire course of one of the three subjects—Latin, Greek and English, and the Intermediate course of the other two; Descriptive Geometry, Shades and Shadows, and Perspective; an elementary course of Surveying and Astronomy.

The applicant for any of the foregoing Degrees must submit to the Faculty a suitable Essay or Oration, to be delivered on Commencement Day if required.

III. DOCTOR OF PHILOSOPHY, (Ph. D.)—This D egree will be conferred on any Master of Arts of the University who, for not less than two years after graduation, shall pursue at the University a special course of study in any one subject taught in the Academic Departments of the Institution. The one special subject shall have associated with it at least one subsidiary or affiliated study. It is expected that from time to time the candidate submit to his Professor, or the Faculty, evidence of independent research in his special line of study; that he stand at least two examinations during his course, and that he produce a thesis, or special essay, the final year, showing the progress he has made.

2. PROFESSIONAL.

IV. CIVIL ENGINEER, (C. E.)—The requirements for this Degree are Certificates of Proficiency in Mathematics; Applied Mathematics; Chemistry, Natural History and Geology; Natural Philosophy; French *or* German; and Plans and Reports upon assigned subjects.

V. BACHELOR OF LAW, (B. L.)—This Degree is conferred on graduates in the School of Law and Equity.

COURSE OF STUDY.

Students are allowed to pursue such studies as they may select, if found prepared. But each student is required to attend at least fifteen lectures a week, or their equivalent; and no student is allowed to leave any class without the permission of the Faculty. Students are assigned to their classes at the beginning of the session, according to their qualifications, as far as these can be ascertained, but will be liable at any time to a transfer to a lower class, when it is deemed necessary by the Professor.

While the course of study is elective, students will receive the advice of the President and Faculty with reference to the choice and arrangement of their studies, according to the circumstances of each particular case.

FELLOWSHIPS.

The generous contribution has been recently made to the University of a sum, the annual interest of which is \$500, by H. H. Houston, Esq., of Philadelphia, for the purpose of endowing a permanent fellowship, to be known as the "Howard Houston Fellowship," as a tribute to the memory of a deceased son. As other fellowships may be founded, it is thought proper to state the design, conditions and requirements of this valuable appendage to the educational appliances of the Institution.

1. The design is to secure a more thorough and extended scholarship than can be attained in the time usually allotted to academic instruction.

2. The Fellowships will be restricted to graduates of this University.

3. They will be conferred for two consecutive years, and are not to be relinquished in any case until the end of that term, except for sufficient reasons, to be approved by the Faculty.

4. The recipient of a Fellowship shall reside in or near the University and pursue a special line of study looking to the degree of Ph. D., under the supervision of the Professor in the department he may select.

5. If required by the Faculty he shall give instruction in the University for not more than two hours per day.

6. He shall have access to the Library, class-room instruction and other privileges of the University, and shall receive a salary of \$500, or whatever smaller sum may be yielded by the endowment of the Fellowship to which he is appointed.

 For information respecting the minor details of the conditions and duties of the Fellowships, application may be made to the President of the University.

HONORARY SCHOLARSHIPS.

These are intended to reward high attainments in scholarship, and, at the same time, to promote and secure general meritorious conduct. Under this head are two classes:—

SATURDAY.

Ditto.

Ditto.

Chemistry.
Int. Latin.
Sr. English.

Int. Latin.

Ditto.

Ditto.

* There is an additional hour per week for Sr. Greek and Latin given to Greek and Roman History.

I. UNIVERSITY SCHOLARSHIPS.

These are six in number, one being conferred by the Faculty in each of the Departments of Latin, Greek, Natural Philosophy, and Chemistry and Geology, and two in English and Modern Languages.

II. ENDOWED SCHOLARSHIPS.

These are four in number—

1. The *Taylor Scholarship*, endowed by Mrs. Fanny B. Taylor, of Baltimore, conferred by the Faculty upon the student attaining the highest proficiency in the Intermediate Class in Mathematics.

2. The *Young Scholarship*, endowed by Henry Young, Esq., of New York, conferred by the Faculty upon the student attaining the highest proficiency in Moral Philosophy.

3. The *F. O. French Scholarship*, established by F. O. French, Esq., of New York, conferred by the Faculty upon an undergraduate selected from any department.

4. The *Hamilton Law Scholarship*, established by Mrs. Virginia C. Hamilton, of Augusta County, Va., entitles the recipient to attend the School of Law and Equity for one session, without the payment of tuition and fees.

All the Honorary Scholarships entitle the students appointed to them to attend the Academic Departments, the Department of Applied Mathematics, and the Junior Class in Law, the following session, without the payment of tuition and fees. In addition to the tuition and fees, the F. O. French Scholarship pays about \$225, making the total value \$300. The money is paid in instalments during the session following the appointment.

ALUMNI SCHOLARSHIPS.

Each LOCAL ALUMNI ASSOCIATION is authorized to nominate—subject to the approval of the Faculty—one student each year to a scholarship for one session, on the following conditions:

1. That the nominee shall be of studious habits and of good moral character; 2. That he shall be qualified to enter the regu-

lar cla

failure
unwort
unless s

lar classes of the University; 3. That he shall not have been a student in this institution. Such student shall be admitted to any of the Academic Departments free of all charges, except those mentioned under SPECIAL PRIVILEGES.

SPECIAL PRIVILEGES.

I. By enactment of the Board of Trustees, the Faculty are authorized to admit into the University, without fees, candidates for the Christian ministry: Provided the said candidates shall be unable to pay the regular charges, and that they shall be recommended by some competent ecclesiastical authority as suitable persons to be educated for the ministry. If any student who has been admitted on these terms shall afterwards decline entering the ministry, his fees shall be held as debts due to the University.

II. The sons of ministers of religion, actually engaged as such, and unable to pay the regular fees, or the sons of such ministers deceased, may be admitted without charge, upon satisfactory testimonials to this effect.

III. In order to establish a system of post-graduate study, such as is necessary to the development of University education, and to extend its advantages as widely as possible, the Faculty may admit without fees all graduates in regular academic degrees of this University to all the privileges of the Academic Departments.

Students admitted on any of the foregoing provisions are free from all charges, except a diploma fee of \$5, required only on their first matriculation, and an annual deposit of \$5, for damages, to be refunded if not expended.

Board and room rent are not included in the above provisions.

Any of the privileges above offered may be withdrawn by the Faculty, whenever the recipient, by improper conduct, or by a failure to make due progress in his studies, shall show himself unworthy of them. These privileges are for one year only, unless specially renewed by the Faculty.

These privileges do not apply to students taking professional courses, nor to any person not prepared to enter the regular classes of the University.

PRIZE MEDALS.

1. The *Robinson Prize Medals*, which are three in number, and of equal value, are named and conferred as follows:

The *Robinson Medal of Ancient and Modern Languages*, in Latin and Roman History, Greek and Greek History, French and German.

The *Robinson Medal of Philosophy and Literature*, in Moral Philosophy, English, Rhetoric, English Literature and Modern History.

The *Robinson Medal of Mathematics and Science*, in Mathematics, Natural Philosophy, Chemistry, Geology, Surveying and Astronomy.

The recipient of either of these Medals must have attained distinguished proficiency in each of the studies involved, and an average examination grade of eighty per cent. in the entire group of subjects required for the medal in question. No student shall receive the same prize twice.

For further information apply to the Clerk of the Faculty.

2. *Two Gold Medals*, for the encouragement of Oratory and Elocution. The first, called the *Orator's Medal*, and of the value of \$50, is awarded to the author of the best original speech, and the second, the *Declaimer's Medal*, valued at \$30, to the best declaimer of a selected piece, in a public competitive trial, during the week of Commencement. Each of the two Literary Societies chooses two members to compete for each of these Medals, and the decision on the merits of the contestants is made by a committee of gentlemen not connected with the University. The medals are provided out of the funds of the University, and delivered by the President on Commencement Day.

3. The *Santini Prize Medal*, which was established by JOSEPH SANTINI of New Orleans, is conferred by the Faculty upon the writer of the best Essay published during the session in *The Southern Collegian*.

COMMENCEMENT ORATIONS.

1. The *Cincinnati Oration* is awarded to that graduate who shall be judged by the Faculty to have attained the highest degree of general scholarship, and is delivered at the Commencement next succeeding graduation.

2. The *Valedictory Address* is awarded to that graduate who shall be selected by his fellow-graduates.

3. An Essay, called the *University Prize Essay*, is awarded by the Faculty to that student who may have submitted the best Essay, in such manner as may be prescribed by the Faculty.

4. The *Law Class Oration* is delivered by a graduate of the Law Class, selected by his fellow-students in the Law School.

Not more than one of the above Essays or Orations shall be awarded to the same student in one year.

ADMISSION.

Applicants for admission who have been students in other Institutions, must produce evidence of having left them in good standing.

Applicants will report themselves to the Faculty within twenty-four hours after their arrival, and none will be allowed to remain more than two days in the University without matriculating, unless specially indulged by the Faculty.

No person under the age of sixteen will be admitted as a student unless prepared to enter the regular classes of the University.

GOVERNMENT.

The government of the University is administered by the President and Faculty, in accordance with a Code of Laws

enacted by the Board of Trustees. The President devotes himself to the duties of his office, occupying a room in the University buildings, to which the students have access at stated times. He presides at the meetings of the Faculty, and, by the reports of the several Professors, is made acquainted with the standing and deportment of each student. All cases of irregularity receive his personal attention.

Students receive the admonition and counsel of the President before being subjected to any penalty, except in cases of flagrant offences. Those who are habitually neglectful of their duties, or who do not regularly attend their classes, will be required to withdraw from the University.

No student is allowed to leave the town during the session without the permission of the President, nor to withdraw from the University without the consent of the Faculty, on the written authority of the parent or guardian.

REPORTS TO PARENTS AND GUARDIANS.

Regular reports of the progress and attendance of the students are made to the President. On the first of November, December, February, April, May and June, a circular is sent to the parent or guardian of each student, showing his absolute and relative standing in his several classes, the number of his absences from his classes, and any other facts that it may be deemed proper to communicate. At the close of each term a similar circular is sent, setting forth the results of his examinations, and his standing for the term.

RELIGIOUS AND MORAL CULTURE.

Religious services are held every morning in the chapel, by the clergymen of Lexington, in rotation.

The students are expected to attend these exercises, and the church of their choice at least once on Sunday. Opportunities are also afforded for attending Bible classes every Sunday.

A "Young Men's Christian Association" exists among the students, and has been found a most efficient agent in promoting their moral and religious welfare.

THE LEWIS BROOKS MUSEUM.

This most attractive and valuable addition recently made to the educational appliances of the University, with all the expenses incurred in its reception and arrangement, is the gift of a generous friend of the University and of science, the late LEWIS BROOKS, Esq., of Rochester, New York. The preparation of rooms and cases, and the orderly disposition of the contents of the Museum were superintended in person by Prof. Henry A. Ward, of Rochester, to whose kindness, scientific skill and professional experience the University is greatly indebted.

The Museum comprises four distinct Cabinets:

1. The *Zoological*, presenting in stuffed specimens and mounted skeletons, representatives of all the divisions of the animal kingdom—mammals, birds, fishes, reptiles, &c. For the study of Natural History, this Cabinet is invaluable.

2. The *Mineralogical*, containing an extensive assortment of specimens from various parts of our land and of foreign countries, many of them rare, and all beautiful. Appended to this is a collection of *Lithological* specimens of almost every variety of rocks used for building and other works of art.

3. The *Geological*, representing in miniature the history of our earth, from the earliest periods of organic life. It embraces an extensive collection of fossil animals and plants belonging to the fauna and flora of each geological age.

This Cabinet, as also that of Mineralogy, not only lends important aid to the student in gaining a knowledge of the science, but also invests the study with new life and interest.

4. The *Botanical*, embracing an Herbarium of 5,000 specimens, mounted in walnut cases; a Portfolio of American trees; about 700 sections of various kinds of wood; numerous rare fruits and models of flowers; mounted botanical charts; everything, in fact, that is required to illustrate Structural and Systematic Botany, and Vegetable Physiology.

Visitors, as well as students, have daily access to the Museum during University hours.

BUILDING AND ORNAMENTAL STONES.

"The JOHN S. F. BACHEN Collection of Building and Ornamental Rocks," representing the different geological ages, and giving samples of the material employed for structural and ornamental purposes in various public edifices, is an interesting and valuable addition to the facilities of the University for scientific instruction.

It is a donation from JOHN S. F. BACHEN, ESQ., Chicago, Ill.

LIBRARY.

There are about twenty thousand volumes in the Library, to which the students have access under stated regulations.

In connection with the Law School, and apart from the Library of the University, there is a valuable collection of Legal Text-Books and Reports, to which large additions are made every year.

READING ROOM.

The Reading Room is well supplied with periodicals, literary and scientific, and is open to students during recitation hours every day.

GYMNASTICS.

There is a Gymnasium on the University grounds. Baseball, and other athletic sports, are encouraged by the Faculty.

The North River, a mile from the University, furnishes good rowing, and two Boat Clubs, the "Harry Lee" and the "Albert Sidney," have been organized. Each club selects a crew to engage in a boat race, which takes place during Commencement week.

LITERARY SOCIETIES.

The Literary Societies are: The GRAHAM LEE SOCIETY, organized in 1809; and the WASHINGTON LITERARY SOCIETY, organized in 1812. These societies meet once a week for debate and other

litera

literary exercises. They have their own halls and libraries, and their influence upon the character and culture of the students is highly estimated, both by the Faculty and by the students themselves.

Each society celebrates publicly the anniversary of its foundation; the Graham Lee Society, on the 19th of January; the Washington Society, on the 22d of February. On Commencement Day, an address is delivered before the two societies jointly, by some gentleman chosen by them for this purpose.

For special encouragement in the art of Speaking, the Board of Trustees offer two Gold Medals, to be competed for each session by representatives chosen by the societies respectively. Further particulars are given on another page, under the title "Medals."

In connection with the final Celebration of the Societies, the SANTINI MEDAL is publicly conferred.

ALUMNI ASSOCIATION.

The Alumni of the University have had an Association for many years. Its object is to keep alive among the Alumni the sentiment of affection for their Alma Mater, and to unite the graduates of successive years by a common tie of fellowship. Its annual meetings are held at Commencement, when, after the transaction of business, an Anniversary Oration is pronounced, by some alumnus chosen by the Society. The following is the present organization:

W. B. F. LEECH, Virginia, *President.*

J. A. FISHBURNE, Virginia, } *Vice-Presidents.*
W. S. HOPKINS, " }

C. A. GRAVES, *Secretary.*

J. L. CAMPBELL, JR., *Treasurer.*

EXECUTIVE COMMITTEE:

S. J. GRAHAM, *Chairman.*

W. T. SHIELDS,
M. W. PAXTON,

W. A. ANDERSON,
S. T. MORELAND.

LOCAL ALUMNI ASSOCIATIONS.

Any organized body of the Alumni of the University, consisting of not less than seven members, having a president, and one or more vice-presidents, a secretary and an executive com-

mittee, and which shall maintain its organization by holding at least one meeting each year, is recognized as a Local Alumni Association. They tend to keep up, and give practical shape to, the interest felt by the Alumni in the well-being of the University, and it is earnestly hoped that other associations will be formed whenever circumstances will allow. Each Association is authorized to nominate one student each year to a Scholarship, as explained on pages 40 and 41.

Below will be found the officers of the Local Alumni Associations that have been formed. The Presidents of these Associations are *ex-officio* Vice-Presidents of the Association at the University.

 A. S. WHITE,

COMMENCEMENT EXERCISES.

These take place at the close of the session. On the Sunday preceding, a Baccalaureate Sermon is preached before the graduates and the students at large. On Commencement Day the names of the students distinguished in the several classes are announced; Certificates, Diplomas, and University Honors are publicly awarded by the President; and the Addresses of graduates, and the Prize Orations and Essays, are delivered. The celebrations of the Literary Societies and of the Society of the Alumni also take place in Commencement week.

COMMENCEMENT, 1885.

Baccalaureate Sermon.

REV. JOHN HALL, DD. LL. D.....New York.

Address Before the Y. M. C. A.

Valedictory Address.

H. A. WHITE, M. A.....West Virginia.

Unveiling of the Ambler Memorial Tablet.

Centennial Poem, by Mrs. Margaret J. Preston: Read by Col. J. T. L. Preston.

SESSION.

The next Session begins September 16, 1886, and ends June 15, 1887.

EXPENSES.

FEEs.

In the Academic Departments.

Tuition	\$50 00
Fees for Matriculation, use of Library, Servants, &c.....	20 00
Total	\$70 00

In the Professional Departments of Law and Engineering.

Tuition	\$50 00
Matriculation Fee, &c.....	20 00
Total.....	\$70 00
Room rent (for each occupant of the University buildings for the entire Session)	\$10 00

A deposit of \$5 is required of each student to cover damages, the balance of which, not expended, is returned at the close of the session.

On his first matriculation, each student is required to pay a fee of \$5, to cover the cost of all diplomas and certificates through his entire course. No additional charge is made for degrees.

Tuition and fees for the whole session are to be paid in advance.

When a student, on account of his sickness, is necessarily withdrawn from the University before the beginning of the second term, one-half his fees (except matriculation fee of \$5) will be refunded; but no fees are refunded after that time.

Students entering on or after the first of February are charged half the regular fees, \$35, and in addition pay the diploma fee of \$5, and make a deposit of \$2.50 for damages.

BOARDING.

At the University Boarding House, which is a building on the University grounds, occupied by a private family, meals can be had at \$12 per month; meals and lodging, including servants' attendance, \$15. Students lodging here furnish their own towels, blacking, lights and fuel. Fuel is furnished at cost.

The price of board in private families in town varies somewhat, but good board and lodging, including fuel and lights, can usually be had at from \$16 to \$20 per month.

Washing is not included in any of the above prices. It costs \$1.50 per month.

Board bills are expected to be settled monthly, and, in some cases, payment is required monthly in advance.

By getting board at the lowest rates, the necessary expenses of a student, including tuition and fees, but exclusive of books and clothing, may be reduced to about \$250.

Students may take boarding at such private houses only as the Faculty shall approve, and the Faculty may, at any time, require a student to change his boarding-house.

FUNDS OF STUDENTS.

Under a conviction that the unrestrained use of money on the part of students is the source of manifold evils, the Faculty would earnestly recommend to parents and guardians to deposit with the Treasurer of the University all the funds designed for their sons or wards, whether for regular charges of tuition and board, or for any other purposes.

It is the duty of that officer to keep safely the funds placed in his hands, and with the approval of the President, to pay the above-named regular charges, and all bills for purchases made by the authority of parents or guardians, to whom a monthly statement of receipts and expenditures will be forwarded.

Unless the course here recommended is adopted, the Faculty cannot exert a control over the expenses of the students, and cannot be held responsible for them.

The laws of Virginia prohibit the crediting of students who are minors, except on the written permission of their parents or guardians, or of the proper authority of the institution. As the contraction of debt offers a constant temptation to extravagance, the Faculty ask the influence of parents in restraining this evil.

LOCATION.

Lexington is situated in the county of Rockbridge, in the Valley of Virginia, and is surrounded by beautiful mountain scenery. The healthfulness of the climate is attested by the fact that no student at the University has died of disease for a period of more than thirty years. For students subject to miasmatic disease, residence here often produces the most beneficial effects.

ROUTES.

Students from the West, *via* Huntington, may reach Lexington by taking the Richmond and Alleghany Railroad at Clifton Forge, a station on the Chesapeake and Ohio Railroad, or by the

Valley
East ta
or the

Stud
tion ca
ing can
in the r
Alum,
Hotel,

Valley Railroad from Staunton. Students from the South or East take the Richmond and Alleghany Railroad at Lynchburg, or the Valley Railroad at Staunton.

SUMMER BOARDING.

Students who do not wish to return home during the vacation can procure board in Lexington at reduced rates. Boarding can also be had on reasonable terms at the Summer Resorts in the neighborhood. The Rockbridge Baths, the Rockbridge Alum, the Cold Sulphur Springs, and the Natural Bridge Hotel, are within the county and convenient to Lexington.

LIST OF DONORS AND DONATIONS

TO THE LIBRARY AND READING-ROOM FOR THE YEAR ENDING FEB., 1886.

- Rev. C. D. Bradlee, Harrison Square, Boston—"Report of Providence (R. I.) Library;" "Report of Taunton Public Library;" "Report of Boston Public Library, vol. 6, No. 4;" "Report of School Committee of Boston."
