The 9th of August I had a very severe attack of pains in the head. I am now much better, but I suppose I will have to take it easy for a while longer. My head aches very much when I try to read or write, and I am very glad to have your letter. I hope you will come and see me soon. It is very nice of you to write and ask about me. I am glad to hear that you are all well. I wish you could come and see me and stay a few days with me. I am sure you would enjoy it.

I thought of you very much today, and I wish you could be here with me. I am very lonely and I miss you very much. I hope you will write soon and tell me how you are getting along. I am glad to hear that there were two young misses in New York, whose brains were not completely carried away with a review of the gullible and mentally deranged V.M. by a real live Sen. I see eye to eye with you as big names as we ever, when anything new comes to town, it is always, "This is "not that, but they will yet bit some of these days."

Missouri any nonsense.

This is because of the declining young cavalry, maybe he is more jolly than you even think. I like to know when you ever saw a cavalry man who was ever injured by firing the rifle as you are plans ed to team them don't believe me reports about starvation as you say, it is all news. Proper Immovable, by the way that is a funny word, but a very expensive one, where did you come across him?
We have all sent off our extra baggage & are now prepared to move along rapidly as we have only one blanket & a change of clothing. I kept my over coat & didn't like to trust it to Richmond. Will send it here by Mr. Mc. 

Letter of the carrier down, that is if he will bring me anything in the shape of grub in exchange for it. I have all my baggage packed so will have a busy time this summer. I suppose you have almost despaired of my coming in. It has gone to Richmond to Jefferson, but the old man has to much of the same sort of work to attend to that it takes a long time to get round but it will get on round after while, in the mean time I am getting all the benefits of it anyway & am called & letter as bad as anybody. If I can't sign my self an officer you'll direct letter to Mr. Berkeley after arrival.
don't take all I have said as good
earnest or if you would
Think your brother has two men
mummin. I care very little
about the honors of the office, but
it is the privilege I have, on that
account I prize it.

I heard an excellent sermon
today from Mr Hopkins. He is such
a good, nice, man. I think he
is one of the most pleasant men
I ever saw. Any one coming
into every would not mean state
that The young men engaging
with such zest in a game of
ball as pitching sports in play of
mumbles was a chaffling.

But there are the kind of men
we want for chaffliing, not stuff
who associate men, but men who
will mingle with the soldiers in
all of their amusements.
All of the men, like Mr Hopkins,
Mr Lee on that account, they
always knew good congregations.
